FROM THE FOUNDER

Welcome to Evie Willow, the home of exceptional bespoke kitchens and interiors lovingly created using the finest methods and materials.

We believe a luxurious home should be as individual as the life lived within it.

Our bespoke kitchens and interiors are masterpieces designed and handcrafted at our Cotswolds based workshop for modern living with precision, passion and excellence.

Every Evie Willow kitchen reflects its owner: unique, timeless, and destined to endure.

Dan Allen, founder

Heritage luxury

BRITISH LUXURY

Evie Willow is at the forefront of British luxury kitchen and cabinet making.

Founded in 2013 by Dan Allen after years dedicated to learning his craft as a bespoke maker, his devotion to maintaining design and wood working skills that have been passed through generations is woven into the fabric of Evie Willow.

Evie Willow is defined by smart design, an unwavering precision, handcrafted furniture, beautiful finishes and the use of sustainable, high-quality materials.

A kitchen is the heart of the home; a place where memories are created, conversations shared and lives are lived. We create deeply personal, timeless living spaces that are entirely bespoke, designed and handmade exclusively for its owner.

Founded on principles of artistry, integrity, and uncompromising quality, Evie Willow has built a

reputation for crafting luxury kitchens and interiors that embody elegance and individuality.

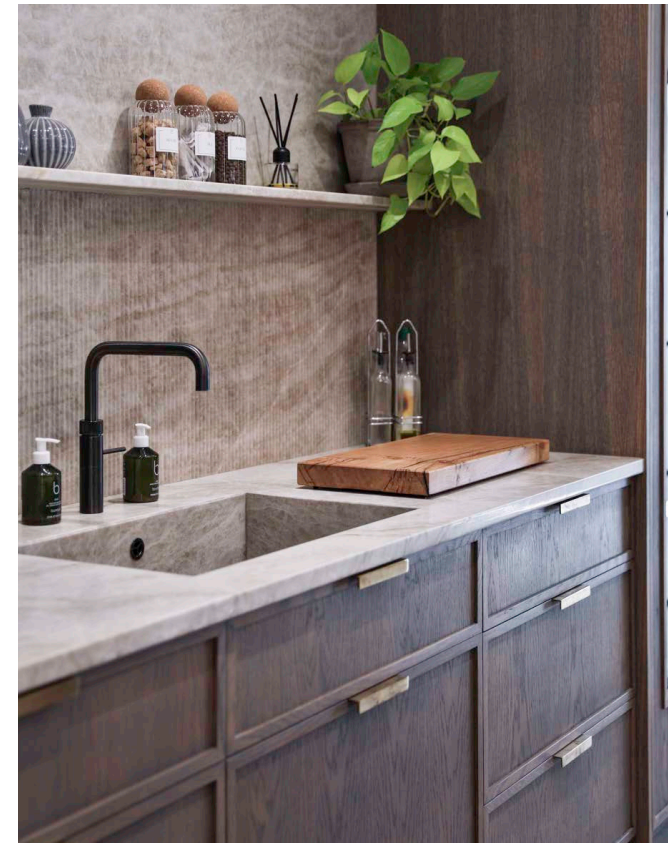

We are talented designers, makers, and storytellers, bringing together form and function in harmony.

Every project is a collaboration between our clients, our designers, and our master craftsmen, ensuring that each space is as unique as the life it serves.

From the first conversation sketch to the final hand-polished surface, every stage is guided with care and precision. We blend tradition with innovation, to combine modern design with time-honoured craftsmanship perfectly.

Choosing Evie Willow means choosing more than a kitchen. It is a statement of individuality, a commitment to luxury, style and British craftsmanship. An investment in a living space that you will cherish.

FROM VISION TO REALITY

Creating a kitchen of true distinction is a journey that begins with listening and understanding you - your lifestyle, your vision, and your home.

This starts at our Cotswolds based showroom and workshop where you will be inspired to collaborate with our design team, who take the time to truly understand your space, how you live and entertain and your personal tastes. The next step would be to engage in our design service, where we visit your home at a time to suit you and conduct a detailed site survey, measuring your space, taking photographs and talking through your design ideas and specific requirements.

Ideas and possibilities will be explored before our designers translate your aspirations into curated concepts, developing initial sketches and then detailed drawings, for your consideration.

This ensures you can visualise your kitchen – the space that will become an integral part of your life. Our team is

highly experienced in designing bespoke kitchens for a wide range of spaces and tastes.

We specialise in working with unique spaces, including heritage homes and Grade I and Grade II listed properties. Collaboration is at the heart of our process and we will guide you through each step, detailing your choices of materials, finishes, and layouts. Every detail is refined, from the subtle grain of a hand-picked walnut panel to the precise proportions of a kitchen island.

Once a design is perfected, our master craftsmen bring it to life with meticulous attention to detail. Every cabinet is lovingly handmade, every surface finished by hand at our workshop, before it is installed by our team, ensuring a result of uncompromising quality.

At Evie Willow, our process is about perfection. Transforming a vision into reality, and a room into a luxurious experience.

CRAFTSMANSHIP AND MATERIALS

At Evie Willow we are masters of our craft. Our team of expert cabinet makers lovingly fuse creativity, tradition and innovation to handcraft bespoke kitchens and furniture.

Cabinet making is ingrained in Evie Willow's DNA and we are committed to maintaining traditional British craftsmanship and ensuring the skills are passed to future generations. We believe that true luxury is defined not by excess, but by excellence. The essence of our work lies in the artistry of our craftsmen and the integrity of the materials we use. Every piece is handmade in our workshop by skilled artisans with the utmost pride and care and everything we make comes with a 20-year guarantee, for absolute peace of mind.

We work with the highest-quality natural materials, using only Forest Stewardship Council (FSC) certified hardwood from responsibly managed forests. Our materials are carefully sourced and selected to meet our uncompromising standards.

Solid hardwoods, rich veneers, natural stones, and specialist finishes form the palette from which we craft each bespoke space. Every panel is chosen for its grain, every hinge for its durability, every surface for its beauty.

Materials should be seen and felt. The reassuring weight of a perfectly balanced drawer, the seamless movement of a hand-fitted door, the satin-smooth finish of a polished worktop are subtle luxuries that define the Evie Willow experience. Our drawer boxes, cabinet doors and carcasses are all individually handcrafted using natural materials and traditional dovetailed joints. We never use chipboard for our

carcassing, opting instead for plywood, which is much stronger and offers a superior strength to weight ratio.

An Evie Willow kitchen is a living space of elegance, integrity, and enduring beauty.

PROJECTS

THE ASTHALL KITCHEN

INVISIBLE FUNCTION, VISIBLE BEAUTY

A sanctuary of natural living, this kitchen draws inspiration from biophilic design, embracing warmth, texture, and light to create a space that feels truly alive.

It is a place of calm and connection, where nature's essence is brought indoors.

Natural harmony

FRAMING THE VIEW

At Evie Willow, every commission begins with a vision, an ambition to create something extraordinary, a luxurious living space that elevates the home.

For one discerning client, successful entrepreneurs with a passion for architecture and design, the vision was to create an elegant kitchen for their forever home that would be beautifully understated and seamlessly functional. A space that did not feel like a kitchen, a sculpted interior that echoed Scandinavian simplicity, natural textures, and subtle luxury.

REFINED CRAFTSMANSHIP

The project set against breathtaking views, was a masterclass in problem-solving and refined craftsmanship.

Evie Willow created combined technical ingenuity and exceptional craftsmanship.

Appliances were discreetly concealed behind bespoke pocket doors and push-to-open cabinetry, while a recirculating white hob almost disappeared into the granite surface.

The centrepiece is a monumental island, which is positioned with the utmost precision to perfectly frame the stunning view from the window. Sourcing a large island worktop of natural granite was a challenge we overcame with perfection. We secured Italian Daino Reale granite through meticulous book-matching and advanced resin techniques and our artisans created an uninterrupted flow of natural grain, cascading into waterfall ends. The result is a sensational sculptural statement.

The material palette is anchored in natural textures; fluted oak cabinetry, refined plaster finishes, and a soft, matt lacquered surface allowing the timber's warmth to remain authentic while ensuring longevity.

Every design element was carefully considered, from recessed brass details to bespoke lighting that subtly illuminate the space.

Innovative craftsmanship that blended traditional skills with contemporary techniques created a beautiful, durable living space that preserved the authenticity of the timber's texture.

With bespoke design at its core, this project exemplifies the Evie Willow philosophy; to craft cabinetry that transcends function, delivering artistry, innovation and timeless design to deliver a client's vision with meticulous care and perfection.

PRECISION, ARTISTRY AND A SENSE OF TIMELESS LUXURY

Invisible functionality and exquisite beauty are
seamlessly woven together to craft a kitchen of
lasting sophistication

BOWLES FARM HOUSE

THE ART OF NATURAL LIVING

A vision of understated elegance, this kitchen was designed as a sculpted interior, where Scandinavian simplicity and subtle luxury harmonise with natural textures.

It is a forever home centrepiece, refined, serene, and beautifully functional.

BIOPHILIC SANCTUARY

When our client, who was trained in interior design, approached Evie Willow, she envisioned a kitchen that would be sanctuary.

With a deep understanding of finishes, proportion and atmosphere, she sought a kitchen that would transform a dated, dysfunctional space and embody her passion for biophilic design, bringing the essence of nature indoors. She wanted a kitchen that connected her home to nature, a space alive with texture, warmth, and light.

The heritage property presented irregular walls, unusual angles and a window positioned lower than standard cabinetry and the project required technical precision and ingenuity.

Evie Willow created a design balancing functionality with elegance, turning architectural constraints into defining features.

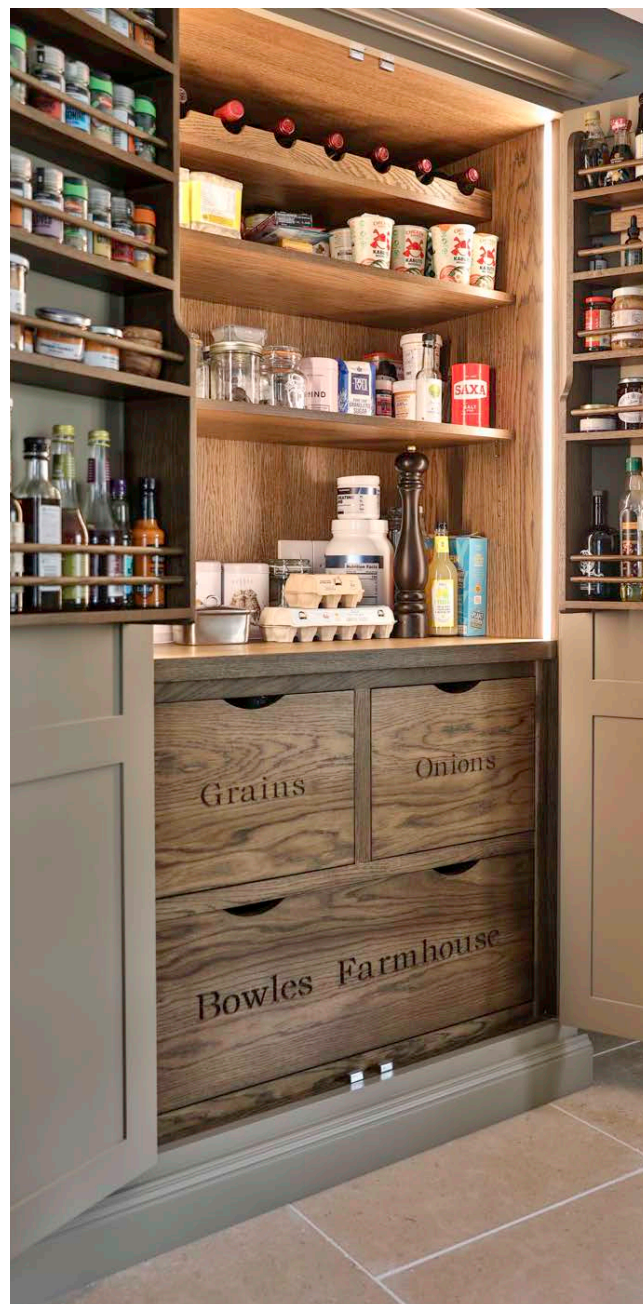

At the kitchen's heart is a striking island clad in fluted oak panelling, its warm texture complemented by quartz worktops with dramatic veining. Here, coffees are savoured, friends gather for conversation and evenings unfold over shared meals.

The cabinetry combines painted finishes with timber elements in two bespoke stains, creating layered contrasts that echo natural tones. Internals are finished in a darker stain, paired with chocolate bronze hardware, enhancing both depth and detail.

Our craftsmen addressed the kitchen's function with precision and care. A bespoke larder, complete with wine racks, spice storage, and engraved drawers featuring the house name, offers both charm and practicality.

A dedicated coffee cabinet was hand-crafted to accommodate both current and future machines and an angled corner became a feature display unit, softly lit to beautifully showcase books and ceramics. Electrical sockets were elegantly and seamlessly incorporated into the fluted oak with precision joinery.

By reimagining awkward architecture and using nature as part of the design narrative this kitchen is purposeful, flowing, and serene.

CREATING WITH PURPOSE

ELEGANT SPACES

While the kitchen is the heart of the home, true luxury is found in the seamless flow between every room.

Our bespoke craftsmanship extends beyond the kitchen, bringing the same meticulous care, elegance, and individuality to a range of interior spaces.

We specialise in creating bespoke boot-rooms, bars, media rooms, outdoor kitchens and cabinetry for bedrooms and bathrooms.

Every space we design reflects your home and lifestyle. For families, this might mean creating durable yet stylish storage solutions. For entertainers, it may be a contemporary bar or media room designed to delight and impress. For country homes, a welcoming boot room might be as important as your kitchen.

Our boot rooms and utility spaces embody the art of making the functional beautiful. Far from being afterthoughts, these rooms are designed with the same level of care as our kitchens, ensuring that even the most practical spaces exude elegance. Muddy boots, outdoor gear, and household essentials all find their place in custom cabinetry that is robust, refined, and effortlessly organised.

At Evie Willow we believe every room should exude elegance, style and beauty. We create spaces where practicality meets luxury, elevating the everyday into something truly extraordinary.

REVERENCE FOR HERITAGE

At Evie Willow, we have a deep respect for history. Both of our craft and of the properties we create bespoke living spaces for.

Many of the homes we are entrusted to transform are not just houses, but legacies; Georgian townhouses, Victorian estates, Tudor farmhouses and listed country manors with stories woven into their walls.

We understand that designing for special spaces requires sensitivity, knowledge and reverence for heritage. Our designers excel in honouring the character of heritage properties, while enhancing them with modern tastes. For a Grade I or II listed building it may involve seeking Listed Building Consent for any changes, alongside respecting existing features, and carefully integrating modern elements.

We approach each project with care, studying the proportions, materials, and architectural language of the building.

Working with heritage homes often presents challenges, uneven walls, intricate mouldings, and historic constraints. Yet it is these complexities that inspire our finest work. Our craftsmen excel at tailoring cabinetry to unusual proportions and integrating contemporary designs while preserving period details.

Hand-selecting natural materials that are sympathetic to a property's fabric play a vital role in effortlessly merging old and new. Natural woods, stones and traditional finishes allow our creations to blend seamlessly with heritage properties.

While choosing the perfect colour to hand-paint your kitchen to achieve the perfect finish should never be underestimated.

At Evie Willow, heritage is not compromised, it is cherished, respected and reimagined for generations to come.

Bespoke craftsmanship

COLLABORATORS AND CRAFTSMEN

Evie Willow are trusted partners to some of the most discerning property professionals.

We collaborate with high-end developers, leading interior designers and visionary architects to deliver spaces of exceptional quality and timeless design. We understand sourcing a reliable partner to deliver exquisite, high-end kitchens is an important aspect of creating luxury homes.

Our team design, handcraft and install exquisite kitchens to your specification, on time and on budget to the highest standards. We work in collaboration with your team to achieve the perfect outcomes for your clients and add significant value to prestigious projects.

Evie Willow is dedicated to our craft and never compromises standards or materials, offers commercial contract terms and delivers exceptional handcrafted living spaces.

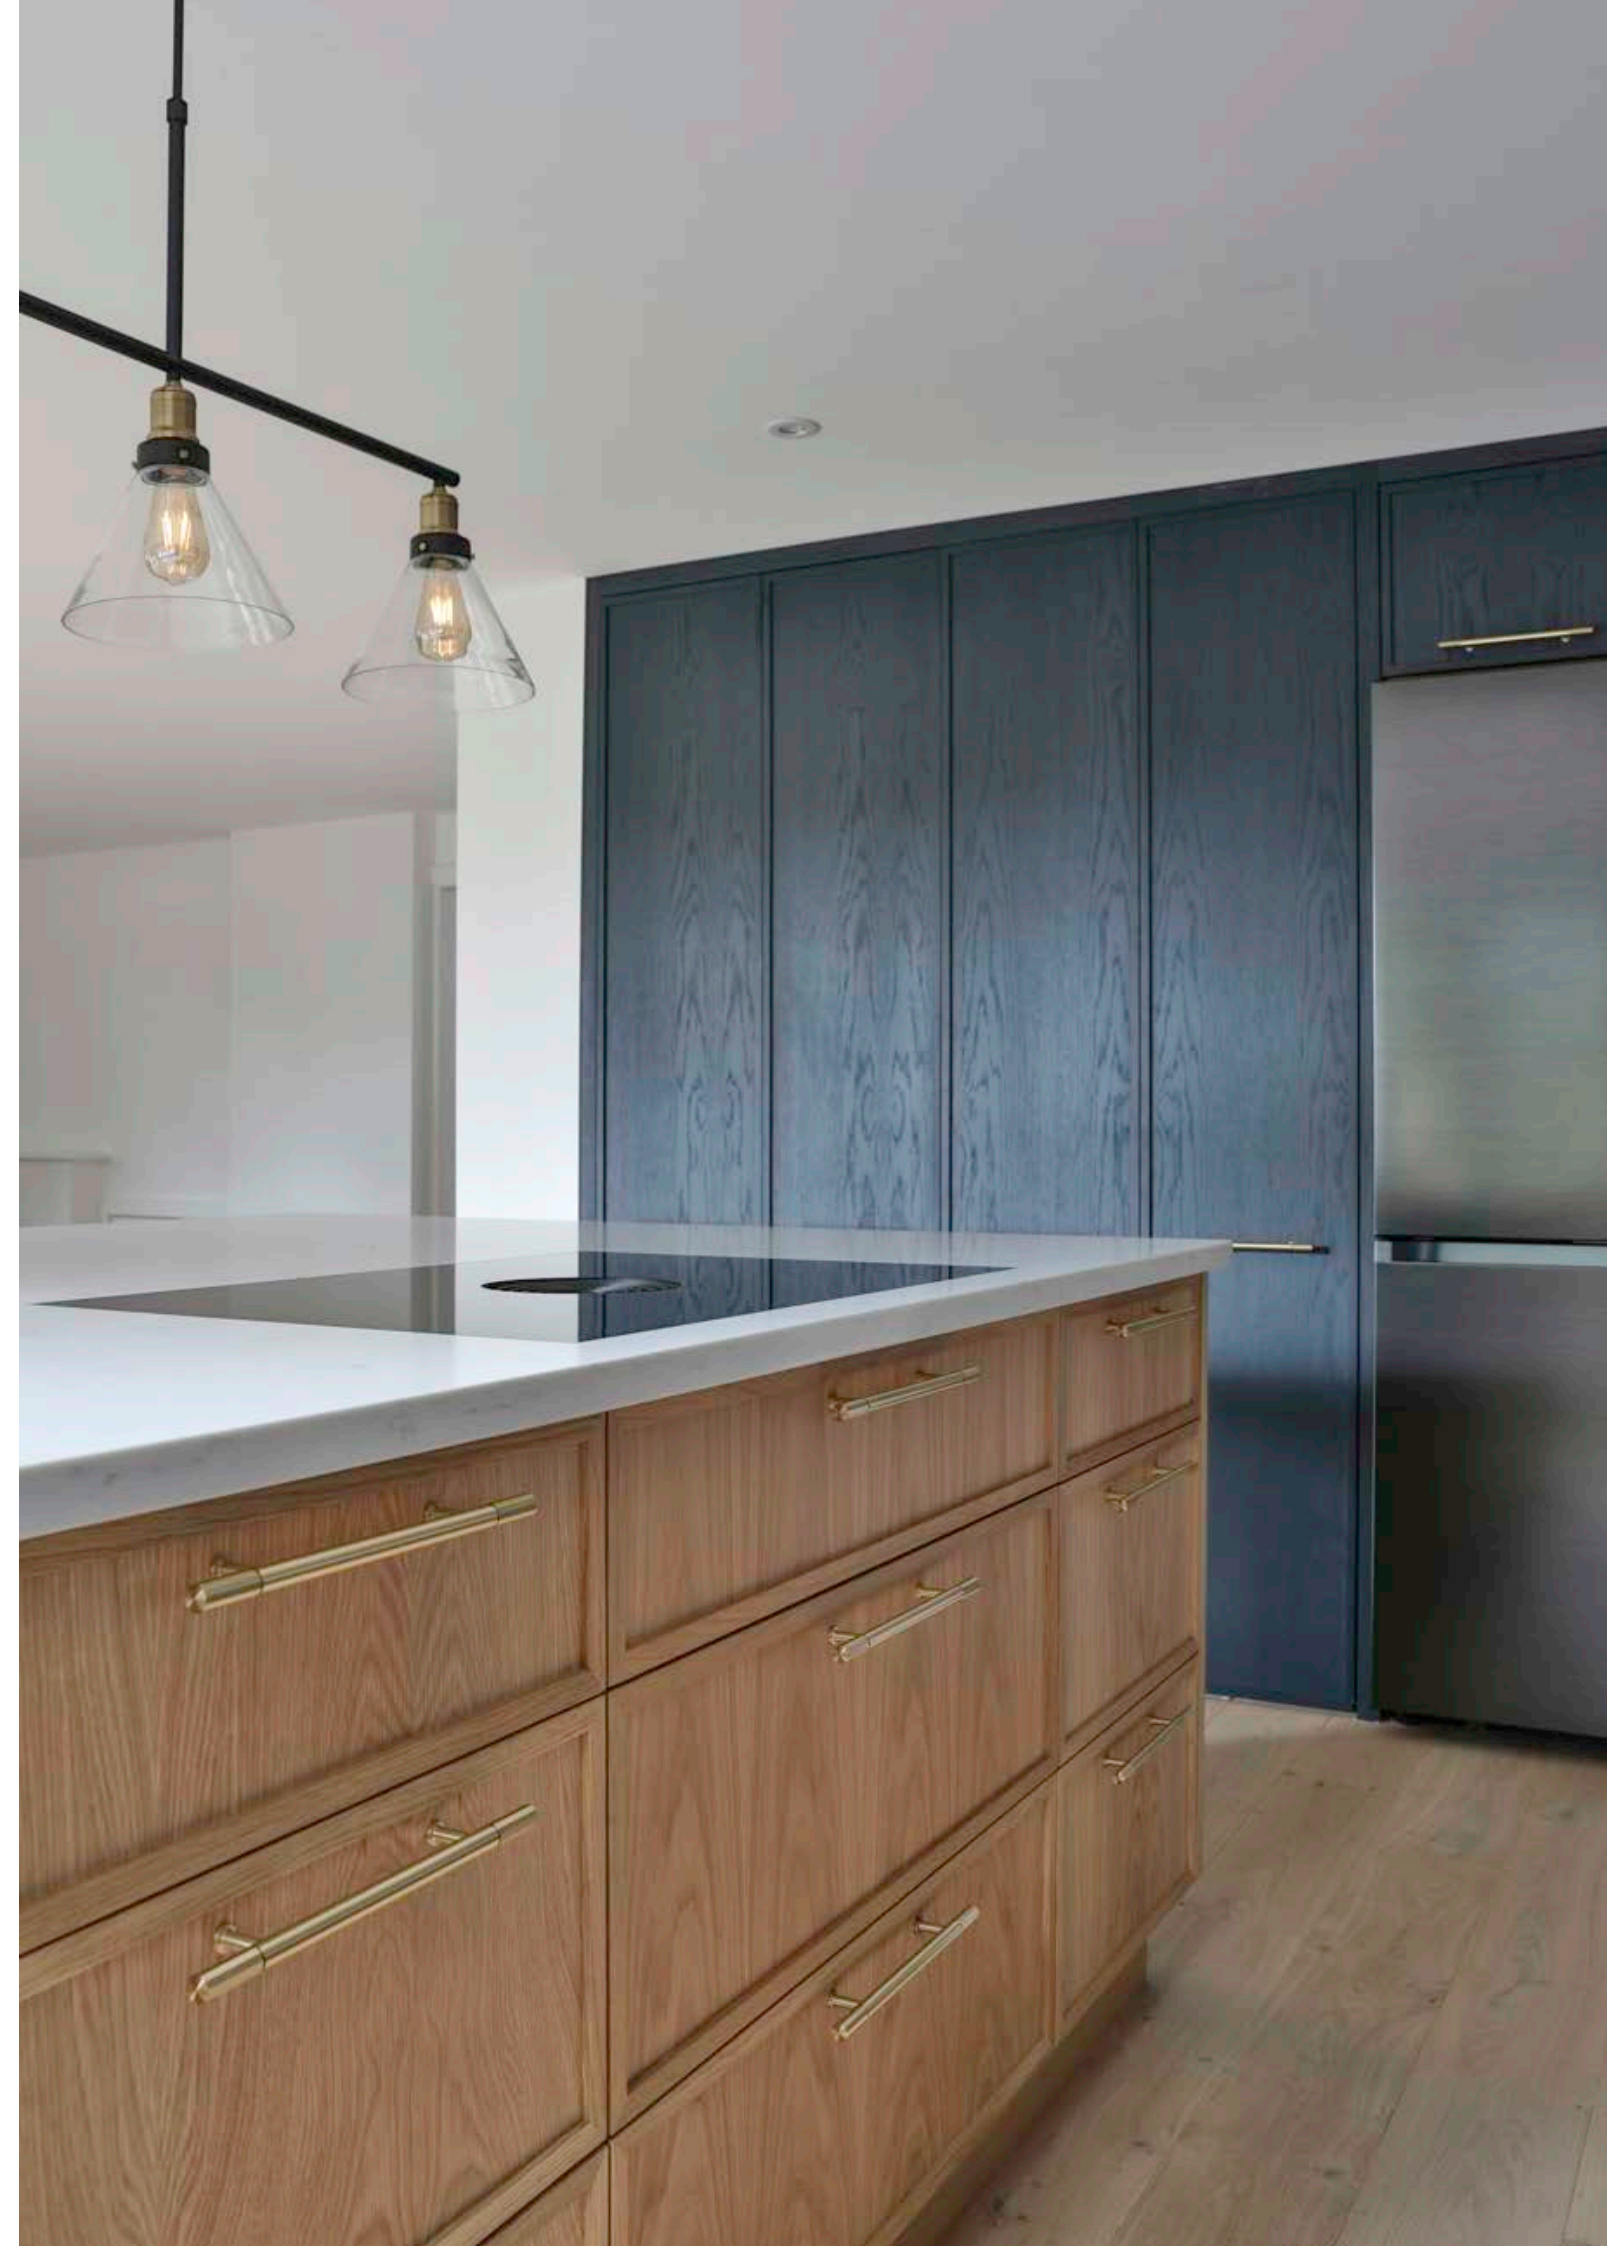

We provide a specialist design service or can work from architects' plans. If you have a buyer for a property we can

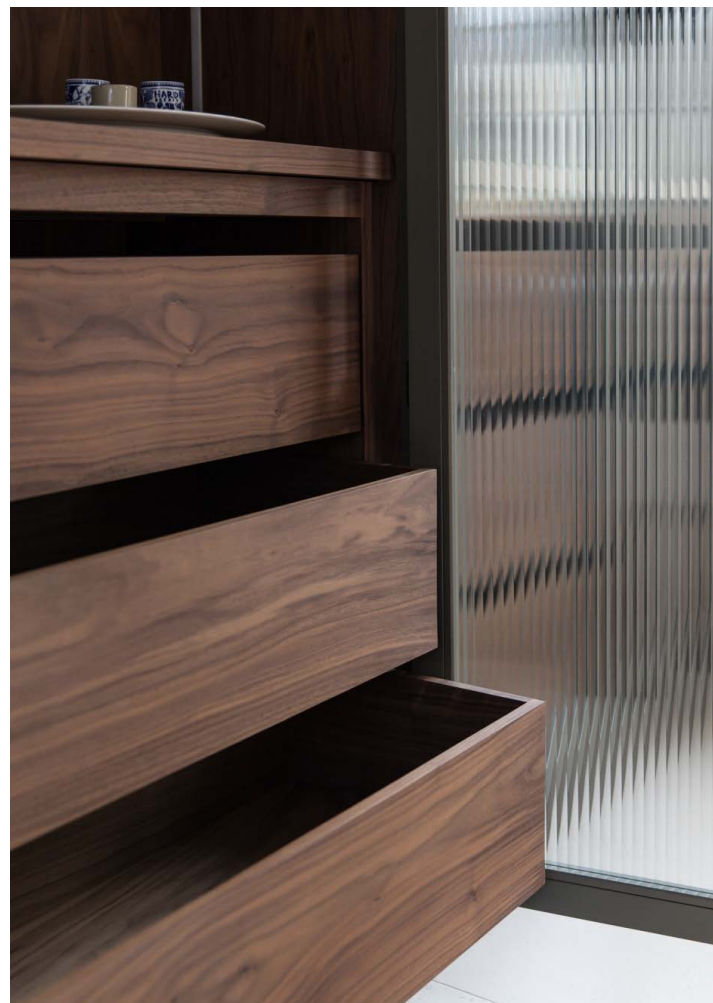

also collaborate directly with them to ensure the kitchen is tailored to their tastes and needs.

For property developers, we offer a rare combination of artistry and efficiency. Every kitchen and interior we create is designed to reflect the exclusivity of a development, providing buyers with a space that embodies luxury and individuality.

For interior designers and architects, we act as collaborators and craftsmen, translating creative visions into reality to the highest standard.

Our partnerships are built on trust, discretion, and excellence. Whether creating a single statement kitchen or crafting interiors across an entire development, Evie Willow brings reliability, artistry, and unparalleled quality to every collaboration.

DESIGNING THE PAST, PRESENT, AND FUTURE

Every project at Evie Willow begins not with a template, but with a conversation to take your dreams and ideas and turn them into beautiful bespoke designs.

We believe the design of a kitchen or living space should grow from the individuality of those who will live within it.

The kitchen remains the heart of the home but in today's world it is much more than that. It's a space for entertaining guests, cooking, relaxing or sometimes even working and many families now spend more time in their kitchen than their lounge.

And intelligent design is key to ensuring we create the kitchen of your dreams that uses your space perfectly, is functional and achieves a look that is befitting of your character and taste. Enjoy a visit to our Cotswolds based showroom and workshop where you can view our stylish kitchen displays and find inspiration for your home. Working in collaboration with you, our designers will help develop your vision, taking the time to talk through your requirements in detail, however creative. Our team are highly experienced in designing bespoke kitchens for a wide range of spaces and tastes.

We will visit your home at a time to suit you and conduct a detailed site survey, measuring your space, taking photographs and talking through your design ideas and specific requirements. Then our creative team will masterfully translate your brief into reality via a comprehensive design.

At Evie Willow, the design journey is never about following trends; it is about creating something timeless, something personal, and something truly yours.

Designed for the way you live

WHY INNOVATION MATTERS

A kitchen has to work as beautifully as it looks. Smart, bespoke design turns everyday moments—prepping, cooking, clearing—into effortless rituals. Thoughtful internal details save steps, reduce clutter, and make space feel bigger than its footprint. They’re uniquely yours. And because they’re tailored to how you live—not how a catalogue is laid out—they stay useful for decades, not seasons.

Result: a kitchen that’s uniquely yours, breathtaking on day one and better with every use.

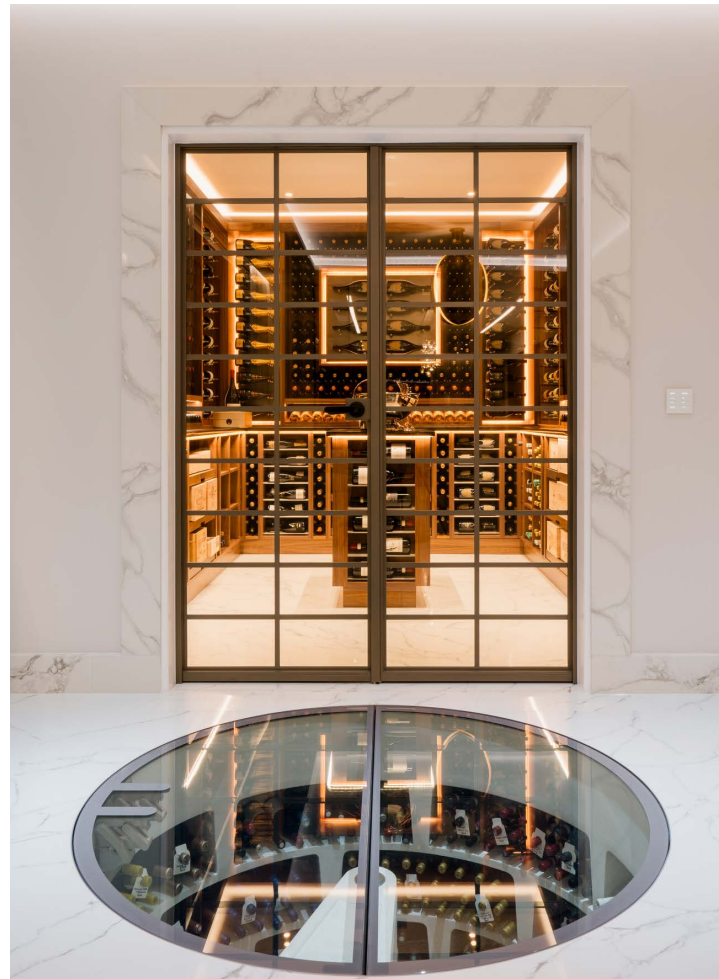

WHY EVIE WILLOW

We design behaviours. Evie Willow’s innovation is practical artistry—engineered, made and fitted as one continuous process.

- **Designed around your rituals:** We start with how you cook, shop and host, and map your habits to create prototype internal layouts to suit—knife and board stations, coffee drawers, charging docks, recycling centres, tray stores and more.

- **Bespoke from the inside out:** Carcasses, dividers and inserts are crafted to millimetre accuracy for your specific needs with no off-the-shelf compromises.
- **Material integrity:** Solid timbers and furniture-grade components give drawers and mechanisms a reassuring weight and a longer life.
- **Quiet brilliance:** Refined engineering you feel every day—smooth runners, balanced pull-outs, soft edges, and silent closes—backed by attentive aftercare.

A LEGACY OF EVIE WILLOW

Every Evie Willow creation is more than a kitchen and more than an interior. It is a legacy. Our work is a testament to artistry, individuality and the timeless elegance of bespoke design. From grand country manors steeped in history to contemporary architectural homes defined by modern lines, each space we create is conceived to endure, inspire and enrich life for generations.

This legacy rests on a foundation of uncompromising quality, meticulous craftsmanship and a deep respect for tradition seamlessly fused with innovation. Every detail, from the careful selection of sustainable hardwoods to the final hand polished finish, reflects our belief that true luxury is lasting.

An Evie Willow kitchen is a living space of excellence, integrity and enduring beauty.
